# FLOWERING CRABS

**FAST BECOMING AMERICA'S FAVORITE ORNAMENTAL TREE!** Make these your sales leader—They will build repeat business and return an excellent profit for you at the same time!

Flowering Crabs are the finest of ornamental trees. Outstanding showy trees! Brilliant in bloom—contrasty in foliage—bearing fruit ranging in color from green thru yellow and bronze to red and purple! Breath-taking contrasts for SPRING, SUMMER, FALL! Very hardy and free from disease making medium to small size trees ideal for the modern lawn and as street trees.

## BEST SELLING "OLD STAND-BY" VARIETIES

### ALDENHAMENSIS—PURPLE CRAB

Reddish tinge to foliage. Semi-double deep crimson flower. Fruit dark purple.

### ELEYI—PURPUREA ELEYI

Reddish purple foliage in spring. Single deep pink blossoms. Showy Red Fruit.

### FLORABUNDA—JAPANESE FLOWERING CRAB

Flowers open pink gradually fading to white. Red fruited strain.

### HOPA—

A mass of crimson buds in April opening to rose colored blossoms, followed by attractive bronzy red foliage. Later the tree sparkles with small bright red apples—red clear thru—that make wonderful jelly and beautiful spiced crab apples. Tree an upright grower, easy to grow and perfectly hardy anywhere. OUR BEST SELLER!

### NIEDZWETZKYANA—REDVEIN CRAB

A hardy, large growing variety. Outstanding large red flowers in April. Mature leaves tinged red. Fruit big and purplish red. Bark also reddish.

### RED SILVER—

Crimson flowers, rich maroon red fruit. Foliage semi-cutleaf with silver and red coloring making a remarkable beautiful combination.

### SCHUDECKERI—

Flowers pale pink and semi-double. Fruit yellow. Foliage rich green. Bark green. Good grower.

### DOLGO—

Single white flowers—Very hardy—Red fruit—Most popular jelly crab.

## NEW INTRODUCTIONS

### Hardy Canadian Rosy Bloom Varieties

#### ALMEY—

With glistening Red Petals of large size carrying a white marking at base of each petal giving the effect of a five pointed star, ALMEY is truly the most outstanding introduction for many years. New foliage tipped with red, mature leaves large, bright green and serrated. Bark of new growth reddish bronze flecked with white. An excellent item to pot for cash and carry sales as it USUALLY BLOOMS THE FIRST YEAR PLANTED! The Scarlet fruits are retained till spring, furnishing winter color and food for winter birds.

#### ARROW—

Purple blooms about 1 week later than Almey extends your blooming season. Flowers completely cover the tree and are followed by small oxblood red crab apples which hang on late. Foliage tinged with red when young. Vigorous grower.

#### GENEVA—

Deep red blossoms follow Almey by about ten days—Foliage tinged with red when young. Small red fruits hang on until late. Vigorous grower.

#### KLEHM BECHTELS

Double pink. An improved type of famous Bechtel variety.

#### MAKAMIC—

One of the latest to bloom! Beautiful rose colored flowers with darker veins, buds rich colored and floriferous every year. Large bright green leaves—Oxblood red fruits hang on tree all winter. One of the best new pinks and with the other Hardy Canadian varieties you have a period of bloom never before equalled.

#### SUNDOG—

Pyramidal type—Flowers large size and deep pink. Red Fruit.

#### COWICHAN—

Foliage brilliantly colored in fall. Fruit spectrum red good for jelly. Flowers single, purplish red. Very early bloomer. Tree a vigorous grower.

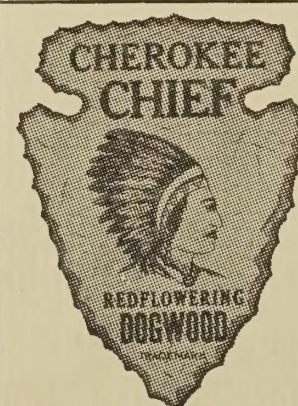

#### STRATHMORE—

Very Upright, Almost Fastigate—Colorful Foliage All Summer. Red Blooms—Small Red Fruit. Completely different growth form for a flowering crab—Wonderful Accent Plant. Very Hardy.

#### TOMIKO—

Purple Leaf Flowering Crab. Deep purple foliage all summer. Lavender Blooms—Red Fruit—Purplish Bark—Spreading Grower—Another New and Outstanding Flowering Crab. Very Hardy.

# MORaine LOCUST

*"The Ideal Shade Tree"*

## Now You Can Have BOTH Shade Trees and a Beautiful Lawn

For welcome shade in a hurry, shade that lets lawn grasses grow luxuriantly beneath, plant the graceful MORaine LOCUST tree.

This new thornless, seedless variety is a tall, spreading, vase-shaped tree when fully grown, making a screen that protects the privacy of your garden without shutting out the breeze.

**Lacy Shade in Summer,**

**Warm Sunshine in Winter**

Lacy as a willow, stately as an elm, resistant to disease and insect damage, the MORaine LOCUST is the ideal shade tree to plant near the house for quick, cool shade in summer. Plenty of warm sunshine reaches the house through its bare branches in winter.

### A Clean, Tidy Tree That Doesn't Make Work

This new thornless, seedless locust tree is ideal from the maintenance standpoint. There are no untidy seed pods to dispose of, no heavy leaves to collect. Its delicate compound leaves dry and crumble quickly leaving no maintenance problem.

### Hardy, Vigorous, Fast-growing Shade Tree

MORaine LOCUST'S resistance to disease and insect damage has been established by 37-year records. Its sturdy, hard wood also resists storm and ice damage. It is tolerant of drouth and imperfect drainage.

Once established, the fast-growing MORaine LOCUST adds from 3 to 5 feet in a year. Under favorable conditions these trees reach 25 to 30-foot height within 7 years.

### Where to Plant MORaine LOCUST Shade Trees

MORaine LOCUST is beautiful when used as a stately specimen tree in the lawn . . . or as a graceful accent in a border or background planting . . . as a frame for scenic vista . . . as a shade for terrace, patio, veranda, or outdoor living room.

### ESTABLISHED WHOLESALE PRICES

One year top, 3 year root, Once transplanted

Price Per	1 to 9	10 to 49	50 to 499

This variety of Honey Locust tree is a patented variety covered by United States Plant Patent No. 836 and is being handled under license from the patent owner. "MORaine" is the registered trade mark of The Siebenthaler Co.

# Specialty Items

It has long been our endeavor to grow for you the very best quality of nursery stock possible and to make available to you new and different items that have merit and sales appeal. These items will have various appeals to your customers—NEW—DIFFERENT—COLORFUL—NEW FORM—PRICE—Any one of the above appeals will "cinch the sale," make you a profit, give you a happy customer who'll come again and set you apart from the everyday run of the mill nurseryman. Spend a couple of minutes looking over this list. We believe you will find some "real buys."

## NIKKO BLUE HYDRANGEA——

The most beautiful hardy blue hydrangea. Nikko Blue is hardy—having withstood 20° below zero. The tops die down annually but give them a little mulch protection and here they come next spring growing into bushy shrubs 2 to 4 feet tall with luxuriant foliage and tremendous masses of flowers. The flowers are borne on new wood annually. What a show to see this shrub covered with a mass of blooms some of which measure a foot across! Blooms pink in alkaline or sweet soil; blooms blue in acid or sour soil. To change alkaline soil to acid treat with aluminum sulphate two tablespoons mixed in a gallon of water.

Used for foundation specimens, single lawn accent plants, shrub borders or for planting in tubs or flower boxes. A wonderful container item.

	Per 10	Per 100
No. 1, 3 canes & up.....	\$ .70	\$ .60

## XMAS HONEYSUCKLE——

Called by some, Everblooming Honeysuckle by others. It's really **Lonicera Heckrotti**. It's a trailing vine but can be sheared into a shrub or becomes a real climber if given something to climb on. Luxuriant foliage with a greenish blue cast, outstanding trumpet shape flowers coral red on the outside and rich yellow on the inside. Highly fragrant blossoms which keep coming until heavy frost. Some of our customers are doing a real job on this item in containers.

2 yr. No. 1.....	Per 10—	.45, Per 100—	.40

## WEIGELA VANICEKI——

The best of the Red Weigelas.

	Per 10	Per 100
Bareroot 18 to 24 in., 2 canes and up.....	.45	.40
Bareroot 2 to 3 ft., 3 canes and up.....	.55	.50
Bareroot 3 to 4 ft.....	.70	.65

Vaniceki is an improved Eva Rathke. It is originally from Rhode Island and very hardy. Beautiful large size leaves and vigorous growth characteristics make the foliage outstanding. Bright crimson flowers in profusion in the spring and again in later summer and autumn.

## OAKS——

Junior Size Shade Trees for resale or growing on. 5 year old trees transplanted once. Feather pruned to form a balanced head—not whips but branched tops! Stems pruned clean in proportion to height.

	Per 10	Per 100
Bareroot 4 to 5 ft.....	1.10	1.00
Bareroot 5 to 6 ft.....	1.75	1.50
Bareroot 6 to 8 ft.....	3.00	2.50

RED OAK — WATER OAK — WILLOW OAK

## TREE ALTHEA——

What will give you the quantity of bloom and as quickly as Altheas? Here they are in tree form—4 to 5 feet tall with well branched heads and straight pruned stems. Vigorous—hardy—and flowers from late June until frost. Four colors all double.

	Per 10	Per 100
4 to 5 ft. Branched.....	.80	.75

Double Red—Double Blue—Double Pink—Double White

WHAT A RED HOT ITEM IN 3 GALLON CANS—IN BLOOM IN THE MIDDLE OF THE SUMMER!

## HYPERICUM HIDCOTE——

Large, Golden yellow, cup shaped waxy blooms make this new hypericum a real show piece. This is a much improved type of Moserianum being more dwarf, hardier, and a stronger more prostate grower. Highly attractive foliage—easy to grow—should be a natural in cans blooming during the summer.

	Per 10	Per 100
2 yr. FG TPL—12 to 18 in.....	.65	.60

## VIBURNUMS FOR DISCRIMINATING PLANTSMEN!

On their own roots—bushy—2 yrs. in field—

**Vib. Juddi:** (Improved Carlesi)

Best of the Viburnum family. Better foliage—Better grower—More resistant to leaf spot—More compact than Carlesi—Clusters of delicate pink flowers, very fragrant.

	Per 10	Per 100
15 to 18 in. Bareroot.....	1.00	.90
18 to 24 in. Bareroot.....	1.35	1.25
